

## Summer Holidays Homework

Class: - VI

**Dear Students,**

**As the summer sun rises higher and the days stretch longer, it's time to pause, reflect, and recharge. The months of May and June bring with them not just warmth, but also the perfect opportunity to reconnect—with ourselves, with our families, and with the world around us.**

**Let us remember: "A mind stretched by new experiences can never go back to its old dimensions." This summer, let curiosity lead you, compassion guide you, and creativity energize you.**

**As part of the Summer Holiday Engagement 2025, we encourage you to stay indoors during peak hours, remain hydrated, and take thoughtful care of the ecology and environment around you. Even small steps—like reducing plastic use, saving electricity, and caring for plants—can bring meaningful change.**

**This year's holiday homework is designed to nurture Social, Emotional, and Experiential Learning. Whether you're experimenting in the kitchen, helping out at home, writing in your journal, or diving into a book—know that each activity contributes to your growth.**

**Let this summer be more than just a break. Let it be a season of purposeful rest, joyful discovery, and mindful action.**

**I believe in your potential to make a difference and look forward to seeing your spirit shine through in every page of your work.**

**Stay safe, stay curious, and above all—stay kind.**

**Warm wishes,**

**Class Teacher**
